

## WHY DOES THE FORECAST LIST STILL SHOW ITEMS COMPLETED

There has been some misunderstanding where some Users have found that although they have deemed Call-up items "complete", they still keeps appearing in the Forecast Due List. The reason is that these Items will keep re-appearing until the Time Remaining column shows as "N/A". This takes place automatically if a Call-up is satisfied using the menu "Satisfy/Extnd/Vu C/ups" from "Aircraft File". Here if a Call-up Status is set to "COMPLETED" or "N/A" then it automatically inserts "N/A" which then removes it from forecasts. The Keywords recognised by the program are shown in Yellow in the comment box below. Only these Keywords will work. You can't use words "NOT APPLIC" - this is not recognised by the program. You can only use the Keywords recognised by the Program
